Rishank Rawat

Full Stack Developer | Next.js · TypeScript · Node.js · MongoDB

Ahmedabad, India | +91 8799446987 | rishankrawat043@gmail.com

GitHub | LinkedIn | LeetCode

Live work: plusmarkboards.com | himattextile.com | komalcreationllp.com

Summary

Full Stack Developer who ships production websites and applications end to end, with 3 live websites running for real businesses and 5+ full-stack projects covering payments, real-time communication (WebRTC, Socket.IO) and AI-driven recommendations. Builds fast with an AI-assisted workflow while owning architecture, debugging and deployment. Odoo x SPIT Mumbai Hackathon finalist among 200+ teams. 250+ LeetCode problems solved. Final-year B.Tech Computer Engineering student.

Technical Skills

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, HTML5/CSS3

Backend: Node.js, Express.js, REST API Design, JWT Auth, NextAuth, Hono, Multer, Nodemailer

Databases: MongoDB, PostgreSQL, Prisma ORM

Real-Time & AI: Socket.IO, WebRTC, Google Gemini API, Cosine-Similarity Recommenders

Integrations & Media: Stripe, Cloudinary, Leaflet Maps, Recharts, WhatsApp click-to-chat, 3D product viewers

Tools & Deployment: Git/GitHub, Postman, Vercel, Render, Custom Domains, SEO (Metadata, Open Graph), Docker (basic)

Other: Java, Spring Boot, Python, AI-Assisted Development (prompt-driven building, code review, debugging)

Experience

Freelance Full Stack Developer **Sep 2026 – Present**

Independent *Ahmedabad, Gujarat*

- **Plusmark Display System** (plusmarkboards.com): Designed and built the complete website for a GEM-approved board manufacturer (est. 2015), covering 60+ products across 12 categories with specification tables, category navigation and a per-product enquiry flow.
- Added an interactive 3D product viewer, Cloudinary-optimised media, WhatsApp click-to-chat enquiries, a buying guide, a blog and a Google-reviews section (95 reviews) to turn visitors into B2B enquiries.
- Implemented SEO foundations (page metadata, Open Graph previews, sitemap) for Google discoverability and made the site fully responsive for school, dealer and government buyers.
- **Himat Textile** (himattextile.com): Built and launched a B2B garment-sourcing website presenting direct-mill sourcing and wholesale buying support for buyers across 28+ states; responsive, SEO-optimised and deployed on a custom domain.
- **Komal Creation** (komalcreationllp.com): Built and launched the website for an apparel manufacturer offering custom uniforms, branded workwear and private-label apparel to businesses; responsive, with SEO-ready metadata and a custom domain.
- Handled requirements, UI design, development and deployment independently for all three clients.

IT Intern – Vishakha Group (Vishakha Polyfab Pvt. Ltd.) **Jun 2026 – Jul 2026**

Enterprise IT & Finance Systems *Ahmedabad, Gujarat*

- Built an enterprise IT Asset Management System (Next.js, TypeScript, MongoDB) to track hardware assets by purchase cost, vendor, warranty, condition and department-wise assignment.
- Implemented JWT-based role access (Admin/Employee) and gained hands-on exposure to finance-department systems and enterprise workflows during a 30-day internship. (Code)

Projects

GreenBasket – Full Stack E-Commerce Platform | *Next.js, TypeScript, MongoDB* GitHub

- Built a complete grocery e-commerce platform with Stripe payments, NextAuth authentication and Redux Toolkit state management.
- Added Leaflet-based delivery location mapping, Socket.IO real-time order updates, Cloudinary image uploads and a Recharts admin analytics dashboard.

SkillMatch.AI – AI Mentor-Matching Platform | *MERN, WebRTC, Socket.IO* GitHub | Live Demo

- Built an end-to-end mentor-matching platform using cosine-similarity recommendations, improving match accuracy by 40%.
- Engineered real-time video and chat with WebRTC and Socket.IO at sub-150ms latency, with responsive React and Tailwind dashboards.

StockMaster – Inventory Management System | *Java, Spring Boot, MySQL* *Hackathon Finalist 2025*

- Built a full-stack inventory management system using Java, Spring Boot and MySQL during the Odoo x SPIT Mumbai Hackathon.
- Selected as a finalist among 200+ competing teams.

PG-Finder (GetUrStay) – Accommodation Booking Platform | *MERN* GitHub

- Built a booking platform for hotels, PG hostels and rooms-on-rent with listings, bookings and favourites using React, Redux Toolkit and Tailwind CSS.
- Implemented JWT authentication, Cloudinary image uploads and automated Nodemailer email notifications on an Express/MongoDB backend.

Achievements

- **250+ LeetCode problems** solved (189 JavaScript, 100+ Java) with advanced tags in Dynamic Programming, Backtracking and Divide & Conquer; 50-Day Consistency Badge in 2025 and 2026.
- **30+ public GitHub repositories** across MERN, Next.js/TypeScript and Java/Spring Boot stacks.

Education

Gandhinagar University **Gandhinagar, Gujarat**

B.Tech in Computer Engineering | CGPA: 9.0+ *Aug 2023 – Expected May 2027*
